Mehsana, Gujarat, India

ABOUT ME

Information Technology graduate from U V Patel College of Engineering, Mehsana, Gujarat, with hands-on experience in full-stack development. Skilled in Angular, ASP.NET Core, JavaScript, SQL, and DBMS. Proficient in Python, OOP, DSA, and Software Engineering. Completed an internship focusing on full-stack web development. Passionate about contributing to innovative projects and advancing in full-stack development.

KEY COMPETENCIES

- Front-End Technologies: Angular, JavaScript, HTML, CSS, Bootstrap
- Back-End Technologies: ASP.NET Core, .NET
- Database Management: SQL, DBMS, MSSQL
- Programming Languages: C, C#, Python, js, Typescript
- Methodologies: Agile, Scrum, Software Development Life Cycle (SDLC)
- Cloud Platforms: Azure
- Testing: Unit Testing, Test-Driven Development (TDD)

PROFESSIONAL EXPERIENCE

Gateway Group of Companies

August 2023 - Present

Associate Software Engineer

Developed and implemented a an HR process optimization system using ASP.NET Core and Angular. This involved streamlining HR processes and managing an employee directory for enhanced efficiency. I utilized MVC; Asp.Net Core WEB API for backend development and Angular and React for frontend, participating in all phases of the software development lifecycle. Through collaborative teamwork, I delivered a solution that met project objectives and improved workflow efficiency.

PROJECTS

ATTENDME (React Native, Firebase)

Jan 2023 - May 2023

Developed a geo-fencing based automatic attendance app designed to streamline attendance tracking for organizations. This innovative solution enables seamless monitoring of employees' or students' attendance, saving valuable time and effort. By leveraging geo-fencing technology, the app ensures accurate and efficient attendance recording, enhancing organizational efficiency.

Tasky (React, ASP.NET Core Web API)

Oct 2023 - Jan 2024

A Task management web app developed with asp.net core and react, where I learned about REST api, integrating web api with the front end, role based authentication and securing site with JWT authentication. Created mobile responsive UI with the react framework.

BookStore (ASP.NET Core MVC)

Jan 2024 - Feb 2024

Created a E-commerce site for the books using core capabilities of the ASP.NET MVC. In the project i learned about scalability of the database, handling large data using pagination, Area wise development and protecting site from XSS attacks.

Firestore (Angular, Firebase)**May 2024 - June 2024**

Developed a e-commerce web app with multi-project architecture using angular and firebase. Learned about angular framework, and firebase services. Used Ng-Zorro UI library for the components and also implemented server-side pagination, firebase authentication, user management, role based authentication.

Shopper (Angular, ASP.NET Core Web API)**May 2024 - June 2024**

Developed a e-commerce web app with multi-project architecture using angular and asp.net core web api. Learned more about angular framework, and REST api fundamentals. Used Material UI library for the components and also implemented server-side pagination, identity management, user management, claim based authentication.

EDUCATION**Bachelor of Technology (Information Technology)**

Majors: Information Technology
Ganpat University

Certifications

**Theoretical and Practical understanding of
JavaScript**

**Recent Trends and Technological development
using AngularJS**

Basics Of Angular (HackerRank)

EXTRACURRICULAR ACTIVITIES

- Continuously acquiring knowledge in emerging technologies.
- participating in and attending various tech meet-ups.
- Utilizing my spare time to undertake new projects.
